SUMMARY

- FullStack Developer with a solid foundation in Java and expertise in Spring Boot and ReactJS, proficiently navigating the intricate layers of modern software development. Bringing hands-on experience in crafting resilient RestAPIs, optimizing SQL databases, and leveraging AWS for scalable solutions. A dedicated collaborator fostering teamwork and innovation, driven by an insatiable curiosity to push boundaries and deliver excellence. Eager to enhance your projects, let's connect and explore opportunities

Experience

Rendered Ideas Softgames

Nov 2022 – Oct 2023

Trainee Developer

Bangaluru, Karnataka

- Developed a strong command of Java programming, allowing me to create and optimize game logic, mechanics, and functionality. Using multi-threading techniques to enhance the performance and responsiveness of in-game elements, resulting in smoother game-play experiences.
- Used AI Platform, achieving a 25% improvement in project delivery timelines and contributing to a 10% increase in project deliverable quality through effective collaboration and peer review.
- Successfully ported Android 8 games to iOS using RoboVM, expanding market reach and potential
- Strategically collaborated with teams to implement in-game ads, maximizing revenue, and managed regular iOS game updates to ensure sustained user engagement.
- Identified and resolved software bugs, ensuring stable and bug-free game applications, while maintaining detailed project documentation for seamless knowledge transfer.

Projects

Fullstack Todo App - [Link](#) | Java, Spring Boot, ReactJs, MySQL

February 2024

- Developed a scalable task management system using Java and Spring Boot
- Implemented secure user authentication with Spring Security, ensuring data protection.
- Designed a modern user interface with React, enhancing overall user experience.
- Integrated MySQL for efficient data storage, optimizing CRUD operations.

Keeper - [Link](#) | HTML, CSS, JavaScript, ReactJs

January 2023

- Created an intuitive and user-friendly interface for adding, and organizing notes.
- Demonstrated proficiency in front-end web development by implementing a visually appealing and interactive note-taking platform.

Retro Arcade - [Link](#) | HTML, CSS, Bootstrap, and JavaScript

December 2022

- Developed a web platform featuring three JavaScript games: Dice game, Simon game, and Drum set.
- Utilized HTML, CSS, Bootstrap, and JavaScript to create an interactive retro arcade-style environment.
- Balanced classic and skill-based games, providing users with a fun and engaging online experience.

Technical Skills

Languages: Java, HTML, CSS, JavaScript, Oracle SQL

Developer Tools: VS Code, Eclipse, Android Studio, Xcode, Tortoisenvn, Gradle, Maven

Technologies/Frameworks: Spring Boot 3, Spring Security, RestAPI, Hibernate, J2EE, ReactJS, Bootstrap, AWS, Docker, ChatGPT, Subversion, GitHub, libGDX, Mantis Bug Tracker, Unit Testing

Education

Dr B C Roy Engineering College

July. 2016 – May 2020

Bachelor of Technology in Electrical Engineering - 7.15 GPA

Durgapur, West Bengal

Training / Certification

Master Spring Boot 3 & Spring Framework 6 with Java

December 2023 – February 2024

in28Minutes Official

Java Full Stack Development

July 2022 – December 2022

JSpiders: Java Training Institute
